Build your qualifications while saving time, money and resources.

The Qualifications and Standards Module will provide a more efficient way to add your qualifications and standards. This module is customer focused, providing a better experience and giving you a greater sense of control and autonomy.

We have shifted our focus into a digital 'self-serve' solution that empowers our customers, providing the flexibility required for structuring qualifications and standards.

Key benefits:

✓ Saves you time by allowing you to build qualifications and standards quickly and more efficiently.

✓ Ensures your data is valid as information is gathered from official sources (IFA and Ofqual).

✓ Self-serving.

✓ No extra costs.

✓ Notifies you of changes to qualifications and standards.

✓ Clear and comprehensive user guides and videos to support you.

✓ Simple and easy process with an intuitive user interface.

✓ Built on modern, advanced technology.

A simple, intuitive process, built with customers at the heart of the process.

Log in to the Qualifications and Standards module. → Search IFA and Ofqual databases. → Download, build and edit qualifications and standards. → Create and bespoke your qualifications and standards with ease.
