bksb

bksb for GCSE

bksb is a global leader in education technology, with solutions for Functional Skills, Digital Skills and GCSE used by thousands of education providers and millions of learners around the world. As an online assessment solution, bksb offers initial and diagnostic assessments alongside personalised learning tools, all available online for your learners and tutors. With bksb, education providers receive a detailed view of each learner's attainment and improvement, while increasing learner engagement through user-friendly resources suited to any level.

The bksb GCSE solution provides the learning and assessment resources needed for your learners to gain their GCSE qualifications in English Language, Maths and English Literature. Using our curriculum expertise alongside the latest innovations in Artificial Intelligence, bksb offers a personalised and engaging progression pathway to any learner working towards GCSE achievement.

Curriculum Delivery:
Our GCSE courses have all been designed to support learners working towards exams on any exam board. Our English Language course is particularly suited to AQA and Pearson Lift, covering all the assessment objectives for papers 1 and 2 and containing exam-focused spelling, punctuation and grammar resources. Also covering maths at both Foundation and Higher level, as well as some of the most popular literature texts, bksb provides streamlined resources for all three supported qualifications.

Progress Tracking:
Our GCSE maths Foundation and Higher solutions use graded assessments and progress checks to track each learner's progress from pre-GCSE levels to grades 1-5 and 1-9 respectively. Our self-marking Test your Knowledge skill checks are also available at the beginning or end of maths modules for learners to evaluate their own attainment.

Empowered Learners:
Maximise learner engagement with bksb's inbuilt learning resources, accessible from any device and designed to cover a range of difficulty levels. Each GCSE course is supported by several short, engaging video resources to illuminate the curriculum and capture the attention of your learners.

In-Depth Reporting:
Inbuilt progression reports are available from within bksb to provide meaningful insight at the click of a button. As well as helping you track your learner achievement, these reports provide valuable evidence of improvement for auditing purposes.
