

## ProMetrix - Fact Sheet

**ProMetrix is a web-based dashboard solution that displays key performance indicators (KPIs), ideally suited to further education colleges, training providers, adult learning and local authorities.**

**Consolidating data from multiple systems to a single location, ProMetrix empowers decision makers displaying the right information in an attractive and concise format, to work smarter and make decisions faster.**

ProMetrix is our web-based dashboard which gives you access to your organisation's KPIs in a user-friendly format. The comprehensive suite of reports, aggregates data from the ProSuite and third-party solutions. Reports are displayed as gauges or charts on the dashboard which is easily configurable to suit your bespoke needs.

Developed in partnership with our customers, ProMetrix ensures each of your users has a personalised dashboard displaying significant information relevant to their role within the college.

The product includes a suite of reports based on key areas of the system ensuring that staff can immediately see data about the learners they educate. The reports are based on data from the Facility database but can also include data from other systems including spreadsheets ensuring the data that teachers need is viewable from one single place.

In addition schools can chose to build their own reports which are displayed as gauges or charts on the dashboard. General users can see the reports that have been selected and configured be the administrator giving a uniform view of data to staff. Advanced users can produce personalised dashboards tailored to their role in school displaying significant information. The report viewer can be opened from each report to allow the data to be interrogated further, this can include drill through to other reports giving a user great insight. The reports are displayed as gauges or charts on the dashboard.

### Key Points

- > A stylish web-based dashboard - The appearance of the dashboard can be customised using a series of in-built themes and by displaying your school logo.

*"ProMetrix has been well worth the money spent and has saved the department a lot of development time."*

# ProMetrix Fact Sheet

- > Easy to Use & Roll out - The administrator can quickly create a dashboard using the included reports and roll it out to all users. Further reports can easily be added overtime. Different dashboards can be created for different types of user (eg. SMT, Heads of Department etc.) Enabling administrators to grant access to specific applications through activation keys.
- > Includes a Comprehensive Suite of Reports - from key areas of the system including attendance, behaviour and assessment. These reports are immediately ready to be added to a user's dashboard.

## Components

The ProMetrix system consists of two components:

- > **Dashboard** - This web application displays a user's personalised dashboard. Up to 16 reports can be displayed at any one time. Only reports that a user has permission to view are shown. Enabling administrators to grant access to specific applications through activation keys.
- > **Admin Utility** - The reports, data sources, permissions and system settings to be managed - reports are managed using the report builder in the admin utility of ProMetrix.

## Comprehensive suite of reports

ProMetrix includes a suite of quality reports from key areas such as achievement, retention, attendance and pass rates. These are immediately ready to be added to a user's dashboard and are kept up-to-date with each product release. Improve data surfacing within your organisation for all of your staff, highlighting key reports and analysis to improve learning outcomes. Take corrective action earlier to prevent small issues becoming larger problems.

## Drill down capabilities

Allow staff to drill-down through the data from a high-level aggregated indicator on a gauge or chart, right down to the individual information that contributes to the top-level number. The report viewer can be opened from each and every report to allow the data to be interrogated further. Export data to PDF, Excel and Word for further analysis or sharing within your organisation.

## Intelligent dashboards

The reports within ProMetrix are displayed as gauges or charts on the dashboard. General users will see the reports selected and configured by the administrator. Advanced users can configure their own dashboards. Dashboard configuration includes, selecting and positioning reports and applying criteria. This allows a user to have a personalised dashboard displaying significant information relevant to their role within the organisation whether that be MIS Director, Principal, Teacher, Curriculum Manager etc.

## Benefits

- > **Make smarter decisions and act faster** - View graphs and charts via intelligent dashboards showcasing your organisations data in real-time to make decisions and take action faster.
- > **3rd part integration** - Display key information from your ProSuite solutions and all third party data sources.
- > **Personalised dashboard** - Customise your dashboard with a series of different tabs and add your organisation's logo.
- > **Available on multiple devices** - Access your KPIs wherever you are on PC, Laptop, mobile or tablet.
