

Exchequer Analytics is a browser-based interactive Business Intelligence tool, which can display data from multiple business areas and software solutions. Our solution delivers end users customised up-to-date information with the ability to drill-down and enquire into different data sets and patterns, comparatively or by exception, for instant and meaningful analysis.

At Advanced, we understand that businesses need to unlock and understand the data within their systems in order to make meaningful business decisions. We've enhanced our Exchequer Analytics tool to ensure our customers are using the best-in-class in data dashboards and are getting the most out of their business eco system.

This latest release builds on the existing capabilities in the product to ensure you get the best out of Exchequer.

What's new?

Working with our partners and customers, we have enhanced various pieces of functionality within the product, including:

- > Fully responsive dashboards available across devices
- > New look and updated Exchequer chart library
- > API - Restful web services
- > More dashboard chart designs including mapping charts
- > Access even more important data; now includes:
 - Project/job costing data
 - Timesheets analysis

- Project status
- Project trees and hierarchies

Why upgrade?

Bring your entire organisations data to life

One dashboard reporting tool for all data and all stakeholders. Users of multiple systems can securely view real-time data in a way which is meaningful and beneficial, giving a real-time view of your customers, stakeholders, suppliers and more.

Anytime, Anywhere

Never worry about being out of the office again with access to insights on the move, via tablet, mobile or laptop. All the data you need – at your fingertips.

Enhanced reporting functionality

Enabling business intelligence in your organisation means that you can take advantage of the data that is kept within your Exchequer solution. Get a better understanding of your financial health quickly and easily with intuitive reporting functionality, built to suit your organisation's needs.

How can I upgrade?
