

ProMetrix – An online dashboard data solution

ProMetrix is an online dashboard solution that displays key performance indicators for colleges and training providers. It displays relevant data in one place, meaning decision makers can deliver information that is easily accessible, understood and acted upon.

Dashboard that works for your college

Within your fully flexible ProMetrix dashboard, you'll have access to a comprehensive suite of reports, with data displayed from both Advanced and non-Advanced products.

A consolidated approach means there's no need to self-calculate reports or rely on weekly email spreadsheets. It's proven to be faster and more cost effective than creating an in-house dashboard.

Andrew Luck, Oaklands College says, "ProMetrix has been well worth the money spent and has saved the department a lot of development time."

Quick to roll out

ProMetrix makes it simple to create a dashboard using the included reports and roll it out to all users, or easily create your own custom reports by using the integrated wizard-driven report builder.

Adapt dashboards to meet user needs

Personalise dashboards that meet the needs of your staff by creating different dashboards for different types of user. Allow staff to drill-down through the data from a high-level aggregated indicator on a gauge or chart, right down to the individual information that contributes to the top-level number.

Personalise your dashboard

You can customise your dashboard with a series of different tabs and even add your organisation's logo.

Options:

- > 12-user (SMT) and site-wide licenses
- > Perpetual or annual licence
- > Annual support and upgrades
- > Training and consultancy
- > Gold support (installation, upgrading and system migration services)

Client requirements:

- > Windows operating system (admin utility)

The Dashboard can be run on:

- > Windows: IE 10 and above, Edge, Chrome, Safari, Firefox
- > Mac: Chrome, Safari, Firefox, Opera,
- > Portable: iPhone/iPad (Safari, Microsoft)
- > Surface: IE 10 RT and above & IE 10 Metro RT and above, Android (Chrome)

"ProMetrix has been well worth the money spent and has saved the department a lot of development time."
