

Advanced Software Consultancy

We understand that you're looking to make the most of your software solution. Whether you decided to work with Advanced to reduce your use of resources, cut costs or improve efficiency throughout the business, we believe that true partnership means we're there to help you achieve your end goals.

Expert advice

We have unrivalled access to some of the best consultants and technical specialists in your industry. Our teams of expert consultants are dedicated to helping you get the best possible use out of your software. We work with over 130 consultants supporting a range of industries; from trained industry experts who can carry out a holistic review of your business, to front-end applications specialists and IT professionals. No matter what your business needs, we have the consultancy package for you.

Dedicated to your business

Our consultants and technical specialists work with your internal project teams to deploy and maintain successful solutions. In addition to our core consultancy services, we offer a number of bespoke service packages, designed with your specific requirements in mind. To ensure our services really work for you, we can also arrange a flexible consulting delivery.

What do we offer?

- > Best practice reviews
- > Data migration services (for selected products)
- > Audits/design and implementations
- > Deployment services
- > Infrastructure design
- > Bespoke development (for selected products)
- > Solution recommendations
- > Support with system-based processes
- > Software benefits realisation management

Advanced Software Consultancy

Other services

As your business grows or changes focus, there may be areas of your solution that you aren't taking advantage of. Our Business Efficiency Review service allows us to identify these areas and give you the best advice, based on our findings, to ensure you continue taking full advantage of your solution. An experienced consultant will visit your organisation to conduct the assessment and review how the software is functioning, as well as how you're using it. Following the visit, we'll provide you with a detailed report helping you identify areas for improvement.

We're Advanced. We positively impact millions of people's lives every day, by providing focused software solutions that simplify your complex business challenges and deliver immediate results. Every member of our team works hard to understand the challenges you face, so we can make sure our solutions are the perfect fit.

How to book

Please contact your account manager in the first instance if you would like to arrange a training session.
