

Docman Connect Transfer of Care Solution

Send clinical correspondence quickly and securely to thousands of GP practices nationally, out of area or across your STP footprint.

Clinical correspondence delivered straight to your preferred system

The Docman Connect service is available to all healthcare providers and is the only service that delivers clinical correspondence to GPs into the system they want to receive it into.

Docman Connect is a revolutionary enhancement to the existing Docman Hub Network, supporting STPs and providers achieve their transfer of care requirements.

As a cloud based service Docman Connect provides health services of all sizes a cost-effective solution for transferring documents and data to GPs.

- > National reach to GP practices
- > Utilising national standards for structured Transfer of Care messages
- > Send any type of clinical correspondence
- > No requirement for local hardware

Send electronic documentation to any care setting, regardless of their infrastructure or digital maturity.

Improve process quality and outcomes for patients by processing data in a safer, consolidated method.

Join 200,000 professionals who are also a part of our Transfer of Care network.

As a Cloud-based service, Docman Connect enables all health service providers a cost effective solution without the need for dedicated hardware on site.

Docman Connect Transfer of Care Solution

Enabling any healthcare provider to send clinical correspondence into a GP's workflow system of choice

Increase the volumes of documents you send electronically by being connected to more GP practices and automatically connect to every Docman GP practice in England. This further reduces your costs and creates time savings for staff by delivering more letters to GPs electronically.

The secure service will ensure organisations are ready and future proofed against any new emerging standards.

Our enhanced monitoring services will provide peace of mind that all clinical documents are being delivered and processed as Docman will pro-actively monitor all collection points and deal with system rejections.

Benefits:

- > Greater cost savings
- > Advanced will carry out regular software upgrades
- > Enhanced rejections and full auditability
- > Futureproof, in line with NHS messaging standards
- > Secure transfer of information
