

Advanced OpenAccounts

Empower your organisation with our finance and procurement management solution, enabling you to easily meet best practice procedures and ultimately improve your performance.

The challenges

Finance Directors face competing demands, being required to ensure the effective running of their organisation, whilst maintaining a multi-dimensional view of performance, scrutinising data for key decision-making processes and reporting to key stakeholders and external bodies. As a result, they consistently face formidable pressure on their time, effort and resources.

The solution

Providing you with effective management of your organisation's and subsidiaries' accounting processes in one fully integrated system, OpenAccounts is flexible and scalable to your needs. With powerful reporting, extensive integration and optimisation for multiple platforms; finance professionals are liberated from significant burdens, enabling them to efficiently drive performance.

The benefits

Powerful reporting

The extensive suite of standardised and configurable reports enables you to meet internal, statutory and regulatory reporting requirements regardless of complexity, providing you with instant analysis for incisive decision making.

Scalable and flexible to your needs

Configurable to satisfy your individual organisational processes, OpenAccounts is highly flexible to your needs and scalable to meet your future growth. OpenAccounts therefore provides you with the peace of mind that you are consistently supporting and improving your business performance, and are equipped to manage any future challenges.

Optimised for multiple platforms

Instant access on multiple platforms, to suit your needs. In addition to being deployable as a typical on premise solution, OpenAccounts is also available as a hosted solution. Through Advanced hosting and managing the solution, users can simply login to the application online, significantly reducing your operating costs.

Advanced OpenAccounts

OpenAccounts also has a fully integrated self-service module, providing instant access online and eliminating your Finance team's burden of lengthy manual processing.

Accommodating the increasing mobility of the modern workforce, OpenAccounts additionally interfaces with an expenses processing mobile app, allowing for instant photo-capture of receipts and expenses entry, anytime, anywhere and on multiple devices. Interfacing with an expenses mobile app is in line with the UK Government's progressive digital agenda, enabling you to keep up with revolutionising trends whilst boosting your organisation's efficiency.

All your organisations in one system

View information from across your multiple organisations in one system, for easy and effective financial management and an instant holistic view of your performance.

Pursue international opportunities with multi-currency features

Whether it's reporting in different currencies to key stakeholders or managing multiple organisations with different currencies, OpenAccounts enables you to meet your business needs. Its multi-currency functionality also empowers you to pursue international and worldwide business opportunities, ultimately contributing to your organisation's growth and business success.

"We evaluated a number of accounting systems and OpenAccounts was clearly the best system as far as we were concerned. We particularly liked the easy to use interface and rich reporting functionality."
