# 1. Advanced Payroll

Advanced Payroll does everything you would expect a great payroll system to do – and then some. Our payroll experts and highly skilled developers have come together to create a truly intuitive, easy-to-use solution – made by payroll professionals, for payroll professionals.

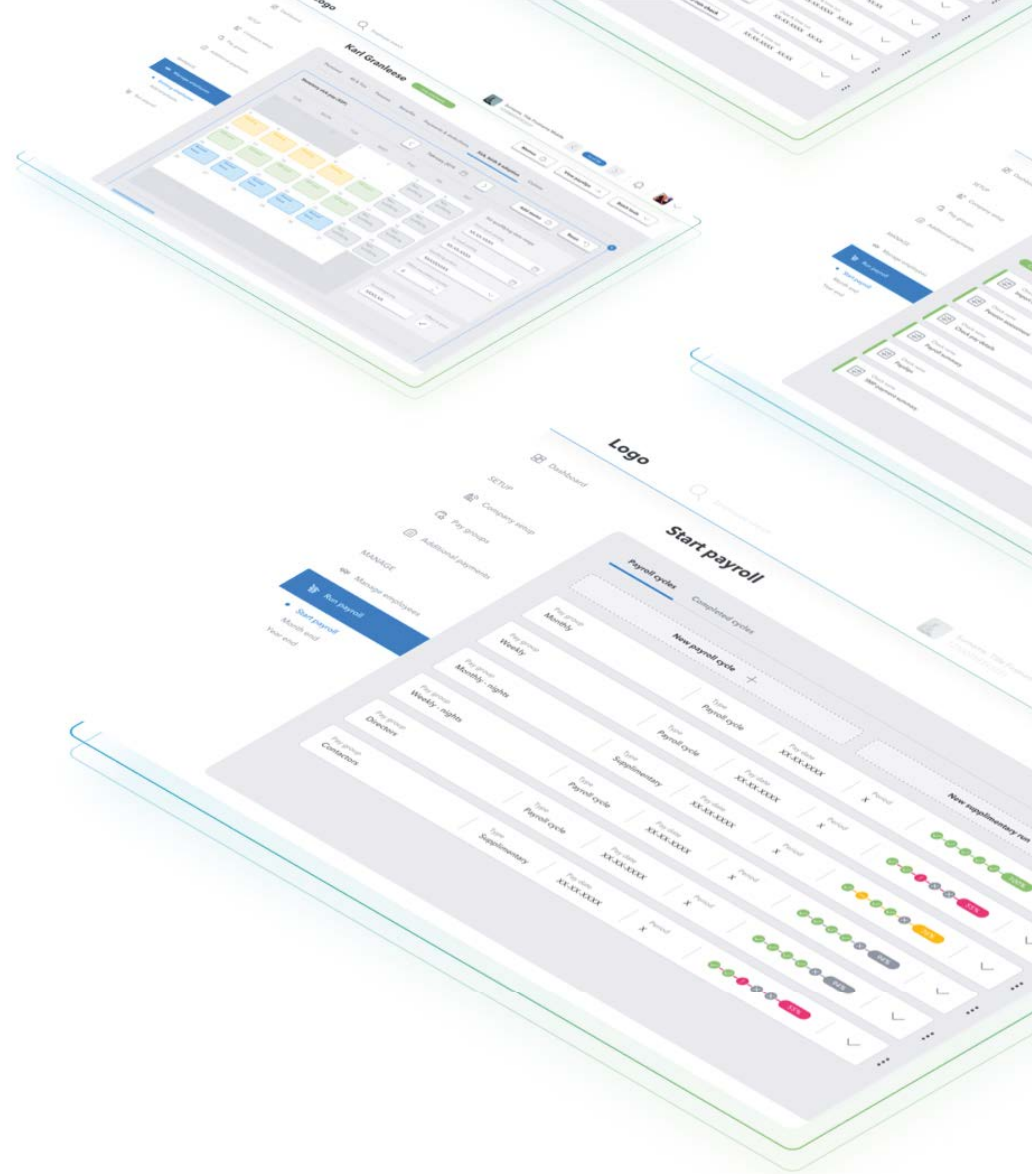

What's more, we've eliminated what for many is the single most frustrating part of payroll management: waiting for payroll to run. Our instant gross to net calculation engine is capable of generating calculations for 10,000 staff in just 20 seconds.<sup>1</sup>

## Seamlessly manage your workforce

Our payroll solution can be implemented alone or integrated with one or more of our workforce management solutions to create a seamless, end-to-end workforce management process.

## Get instant calculations

We've done away with the need to wait for payroll calculations to run. Our gross-to-net calculator is always running in the background, giving you more flexibility for submission deadlines, increased accuracy and no more wasted time.

## Be up and running in no time

Our system has been built to be intuitive and simple, with implementation in as little as three weeks. You'll be set up for success from day one thanks to our smart and efficient implementation and training, which ensures business continuity.

## Use our system with ease

We've put a lot of thought into how Advanced Payroll looks, feels and functions. The dashboards offer a highly polished, intuitive, user-friendly experience that's simple – and pleasant – to work in.

## Make decisions fast

Every business is unique, so we've made it easy to set up complex calculations and reports. From complicated payment rules to granular reporting, Advanced Payroll will give you the control and visibility you need to make informed business and operating decisions.

## Save time and money

Advanced Payroll reduces costs by alleviating the administrative burden of running payroll. And it goes beyond your basic system requirements, helping to increase efficiency and streamline your business processes.

## Improve employee financial wellbeing

We're committed to helping our customers improve financial wellbeing for their employees – and increase productivity, motivation and retention in the process. Our flagship first-to-market interface with Wagestream makes it easy for employees to manage their money between paydays. With the ability to draw down a share of their wages as they work and get pay-on-demand, your staff can come to work with fewer financial worries and keep their minds on the job.

## Get support whenever you need it

If you need support, advice or help, our team is always available. Contact us online, via email, or over the phone.

## Be part of the Advanced Payroll community

Free and exclusive to Advanced Payroll users, our Advanced Payroll community is a friendly and helpful environment where you can speak to other customers, as well as our product managers and management team. The community is a great place to share ideas, contribute to future innovation, provide feedback, learn and stay up to date with the latest updates and legislation.

Managing your payroll in an efficient,  
fast and smart way can significantly  
improve your profit and productivity.

## 2. Our integrated workforce management solutions

### **Time and Attendance software**

Managing your workforce in an efficient, fast and smart way can significantly improve your profit and productivity. Our leading time and attendance system; Advanced Time and Attendance; delivers better operational control and supports the day-to-day management of your workforce.

### **Access control and hardware**

We combine next-generation access control with time and attendance on a single platform: a versatile system that supports multi-site management and remote access, scalable from one to over 1,000 entry/exit points.

### **HR management software**

Our securely integrated HR solution reduces the administrative burden of keeping on top of HR paperwork and processes, providing accurate employee records and a single, centralised record for your employees.

### **Consultancy, implementation and support services**

Our solutions are as good as the people who implement and support them. Our professional services are designed to maximise benefits to your business and deliver the outcomes you need through our proven methodologies. Over the course of your implementation project and beyond, you always have our experts
