INTRODUCING THE DATA AND INFRASTRUCTURE MIGRATION ASSESSMENT

Accelerate your journey to the cloud

Get help evaluating your overall infrastructure in relation to on-premises deployments and future cloud-strategy with insights on the business, cost, and technology benefits of migration.

With the Data and Infrastructure Migration Assessment our experts will guide you through our detailed, four-phased approach

1 Planning

Help you identify your business goals and objectives

2 Data collection
Give you a clear picture of your current data estate

3 Data analysis

Optimize your investment with our analysis of your data and infrastructure

4 Action

Implement a strategic plan created for your cloud journey

57% of enterprise workloads will be in the public cloud by the end of 2020[1]
