

## Mobile MLC

**This mobile solution gives barristers the freedom to work efficiently from any location, at any time**

### Immediate, unlimited access

MLC now offers barristers the flexibility and freedom to work efficiently wherever they are located. You can be equally productive in the office, at home or when travelling.

### Secure remote working

Because you can access Mobile MLC from any device or location, you instantly have the information you need, with none of the security risks associated with losing data that has been saved on internal systems or in paper format.

### Integrated with your workspace

Ensure you never miss billable time again. Every second you are working on documents or emails can be captured by our intelligent time recording tools. Mobile MLC also allows you to create, edit or view time entries and fixed fees.

### Monitor your budget

Our integrated timesheet keeps you on track by allowing you to monitor your performance against daily time and fee budgets and to review your billed time for the day, week, month or year.

The convenient reports feature in MLC offers a number of reports, including aged debt, to help you stay on top of any monies owed to you.

### Risk Management

To minimise your GDPR risk and liability, MLC provides all of the tools you need to manage the acquisition and maintenance of personal data, including rights of access and consent.

### Effective marketing communications

MLC's intelligent, built-in CRM capability allows you to manage all client data in a way that can enhance your marketing activities. To support your growth, MLC provides the data tools that can support your client retention efforts and provide a better understanding of prospective clients, helping you to clearly identify more lucrative opportunities.

MailChimp™ has also been integrated into MLC to provide easy-to-use promotional email templates. These will allow you to execute marketing campaigns in a professional and cost-effective manner and increase your potential to win new business and grow.

## MLC Case Collaboration

**This Cloud-based chambers management solution can help you reduce costs and increase efficiency with easy worksharing and collaboration**

MLC now allows you to hold data securely in a centralised and fully encrypted digital environment. This not only allows you to fulfil your regulatory obligations, it also saves time.

### Smooth case collaboration

Enabling authorised barristers and clerks to conveniently deposit, or access, data from wherever they are, whenever they need to, enables your chambers to provide an exceptional level of service.

This Solicitor Share facility allows clients to directly upload all case related documents, including individual files, bundles and even images, audio or video, into our secure case collaboration vault.

Case Collaboration enables multiple people to work on a case, using a secure, encrypted method of communication and collaboration.

We allow you to prioritise client data security with central administration rights that assign permissions to individuals and ensure you're always in control of user access.

Integration with Microsoft Office 365 and Adobe Acrobat allows you to access, create and amend all of your legal documents in any format.

### Compliance simplified

MLC provides you with built-in General Data Protection Regulation facilities and the data retention policies to ensure full compliance.

By providing secure alternatives to traditional communication methods, such as email, MLC helps chambers comply with GDPR regulations and protects client and case information to a very high level.

### Paperless offers greater security

Case Collaboration removes the risks of saving data locally on internal systems or in paper format. Your documents remain secure and confidential but are always available whenever and wherever they are needed.

Chambers also benefit from a significant reduction in the time and costs associated with paper document management.
