

Service Description

Assessment & Learning (formerly “bksb”)

1. OVERVIEW

EdTech products to assess and improve English, Maths, and Digital Skills. The solutions are designed to meet Ofqual’s criteria, but they are also suitable for almost any other skills improvement programme.

- **Intelligent, accurate assessment**
 - Our assessments use artificial intelligence and complex algorithms to identify an accurate ability level. This is a massive step forward when compared to similar systems which simply add up scores and use boundaries to determine a result.
- **Engaging learning content**
 - The Assessment & Learning resources provide learners with engaging video content and exercises to improve their English, Maths, and Digital Skills. These resources are tailored to an individual’s specific skill gaps.
- **Clear Progression pathways**
 - The Assessment & Learning platform provides a user-friendly experience for learners that guides them through what they need to do, then clearly shows how their skills are improving. It also provides progression data for teachers and managers, which can be invaluable for Ofsted and funding evidence.

2. SOFTWARE MODULES

2.1 Functionality

Functional Skills English and Maths:

- Initial Assessment
- Diagnostic Assessment
- Learning Resources
- Exam Practice
- Progress Checks

GCSE English Language and Maths:

- Diagnostic Assessment
- Learning Resources
- Progress Checks

Digital Functional Skills and Essential Digital Skills

- Diagnostic Assessment
- Learning Resources
- Progress Checks

GCSE English Literature

- Learning Resources

Dyslexia and Dyscalculia Indicators

- Interactive questionnaires

2.2 Parameters

Can be sold for any number of users but there is a minimum order value.

2.3 Excluded / Out of Scope

Not applicable

3. THIRD PARTY SOFTWARE

- 3.1 Applicable terms and conditions for Third-Party Products relating to a Software or Service are located [here](#).

4. PRE-REQUISITES

- 4.1 Latest version of Google Chrome preferred.

5. SERVICE PLATFORM
